The time period for reply, if any, is set in the attached communication.

Office Action Summary	Application No. 10/588,936	Applicant(s) TABATA ET AL.	
	Examiner Lucas Stelling	Art Unit 1797	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group 1, claim(s) 14-18, drawn to a first wastewater treatment apparatus.

Group 2, claim(s) 19-30, drawn to a second wastewater treatment apparatus.

2. The inventions listed as Groups 1 and 2 do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature between these two groups is a wastewater treatment bath and an oxidizing reagent adding unit for adding reagent to the bath. This combination is shown for example in JP 2001-129566 (**See abstract**).

If group 2 is chosen, this application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

3. Group A, claim(s) 20, drawn to a third wastewater treatment apparatus.
4. Group B, claim(s) 21 and 25, drawn to a fourth wastewater treatment apparatus.
5. Group C, claim(s) 26, drawn to a fifth wastewater treatment apparatus.
6. Group D, claim(s) 27, drawn to a sixth wastewater treatment apparatus.
7. Group E, claim(s) 28 and 29, drawn to a seventh wastewater treatment apparatus.

Art Unit: 1797

8. Group F, claim(s) 30, drawn to an eighth wastewater treatment apparatus.

9. The inventions listed as Groups A - F do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: the common technical feature between these groups is the subject matter encompassed by claims 19, and 22-24, which is a wastewater treatment bath, an oxidizing reagent adding unit, and an ultraviolet treatment unit, with claims 22-24 being drawn to associated functional limitations. The structure claimed is shown for example in JP 2001-129566 (**See abstract**).

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement may be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.

The election of an invention or species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

10. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Summary

Applicant must choose either group 1 or group 2 for examination on the merits. If group 2 is chosen, election of one of groups A-F must be made for examination on the

Art Unit: 1797

merits, and claims 19 and 22-24 will be examined along with the invention of group A-F, which has been chosen.
